Vienna, November 27th 2003

Dear Dr. Schick,

**soon there will be Christmas ...
and due to your benefit another wish will become true.**

Once more a sincere thank you on behalf of **Bernhard, his parents and the whole team of Stiftung Kindertraum.**

Bernhard, now 16 years old, was born in Vienna. Since his birth he is physically handicapped and he depends on his wheelchair. After a lot of operations (hips, legs, muscles and sinews) he needs help in any way.

At the moment he serves an apprenticeship, which should enable him to work in an office, with the Austrian Association for Handicapped People.

Bernhard's dream is to visit his uncle in America, the country he loves! His room is posted with fotos and flags of "his country". Bernhard also is a fan of the English language and he likes to learn more and more words. Even his english teacher praised him for his special interest. Films made in America, pictures of sights of America – Bernhard recognizes them all. Bernhard's uncle Martin lives in San Francisco, so the possibility to go there was always present. Now, due to your help Bernhards wish will become true in February 2004.

You cannot imagine how happy you made Bernhard! People at work, his family and his friends - everybody knows that he will go to the United States next year. Many many thanks once again!

Best regards,

Britta Wittmann
Stiftung Kindertraum
